Re: Request for Review

I attempted to correct a clerical error on Form 471, application number **743846** regarding our discount percentage that is affecting our ability to be funded at a higher priority. The discount percentage should be at 88% instead of 80%.

I appealed to USAC and on February 7th, 2011, I received a Decision on Appeal Letter dismissing my appeal. It was dismissed because it was considered "premature" because we are "as yet unfunded." This is the basis of my appeal. We should be funded already if the percentage based on our percentage level.

Funding is already down to the 81% level and those schools that were at the 88% level have already been funded. This error keeps us from being funded.

I would like to contest this decision, because if the error was corrected it would not be premature. I should already be funded.

Please see the attached Appeal letter detailing the clerical error and the Appeal Decision Letter from USAC.

Thank you for time and review.
